WEDNESDAY, APR. 18.

W. S. Taylor, of Butler county, is in Washington.

There will be enough cold waves before July 4th to make frost out of the Dewey boom.

There is much sickness in Porto Rico. Medicine is scarce and people are dying rapidly.

The Republicans of Indiana are all torn to pieces, and the Porto Rican tariff law put them still further apart.

When the Philippians hear of the fate of the Porto Ricans they will fight the harder for independence.

Mr. Dewey says he has always been a Democrat. Well, that is all right, but Bryan will be the next President.

Two-thirds of the Greenback Malitia Company recognizes Mr. Beckham as the legal Governor, and have asked to be discharged.

Congressman Berry will have strong opposition for re-nomination in the Sixth district. There are six or seven possible candidates mentioned.

The County Clerk of Green, Mr. P. F. Marshall, recognizes the State Democratic Administration as the one sending his check last week for the amount due the State from his office.

In the Alabama primary last Saturday Senator Morgan was re-nominated for United States Senator, carrying nearly every county in the State.

Messrs. Lewis McQuinn and Helm Bruce, representing the Democrats and Republicans, respectively, left for Washington last Saturday and will present the gubernatorial case to the Supreme Court this week.

There will be no change in date or place for holding the National Democratic Convention. It will be held at Kansas City July 4, and a new hall will be ready to take the place of the one destroyed by fire.

Speaking of the contest Mr. McQuinn said: "We expect the court to hear argument within ten days after the record is filed. The Supreme court adjourns May 15 until about October. The court bears no argument in any case, as I understand it, after May 1. Between May 1 and May 15 the time is devoted to handing down opinions and decisions."

Last Thursday McKimley signed the Porto Rican tariff bill and it is now a law. The first Governor of the island will be Charles H. Allen, at present Assistant Secretary of the Navy. His salary will be \$8,000 a year. The Republicans will never recougle a large number of their own party to this obnoxious law, which is nothing more than a burden upon a people who were expecting and had reason to expect better treatment from patriotic Americans.

## THE PAST-LOOKING AHEAD.

If the Supreme Court decides that it has no jurisdiction over the political muddle in this State, as we verily believe it will, then we will have a gubernatorial race this fall. Already the question is being agitated as to the logical Democratic candidate, the man who can best serve our party's interest and the interest of our State. We trust that good judgment may guide in our party councils, that discreet acts may clothe our party press and that we may all work together as in the good old times of long ago. It was apparent to our mind when the fight was on last year by the three candidates for the nomination, that it was too bitter; that the Democratic press of the State was too rank; that we were all practically demanding that our personal preference must be selected or the party ruined. We all know the result and many of us realize the magnitude of our mistake.

The News has no apologies to offer for its expressions, for its warm support of Mr. Hardin for the nomination, and when he was defeated, for its best endeavors to assist in the election of Mr. Good-bair.

In the future, as in the past, we will be found true to party and true to convictions, doing all within our power that is fair and right for the best interest of the country and the Democratic party, and we wish to state that we do not intend to surrender that freedom and independence that should characterize honest public expression that relate to the interest of our friends and our party.

We believe the time is approaching, that an opportunity is near, when our party can free itself from all of the complications that have produced divisions, contentions and unsatisfactory results within its own ranks. In our mind this can be done in the selection of our next candidate for Governor. We advocate a conservative policy, and that is to select a Democrat who has had no outstanding alliance with the extremists, who has done his duty as a citizen, as a Democrat, and who who has not embittered any party of his party. Such a nominee would unite our party and give new life and a certain and decisive victory.

There are many able Democrats from whom to select a candidate, but we do not know a man in this State who is better adapted to unite all Democrats, dispel the bitterness of the past, score a great victory next November and make a Governor that would make every true Kentuckian proud, than Hon. E. S. Stone, of Casey. He is a Democrat whose hands have never been soiled by degraded political work, whose Democracy has never been questioned, a lawyer of fine ability. He is fifty-two years of age, and would make a Governor that would restore Kentucky to her original proud standing. We feel that a better man could not be found. While he may not be known throughout the State, yet to meet him and hear him on the great question would satisfy the most exacting.

At a meeting of the Ohio Association of Democratic clubs held at Columbus, last week, a resolution was passed, reaffirming the Chicago platform, denouncing imperialism, the Porto Rican tariff, trusts and railroad combinations. It expressed sympathy for the Boers and demanded a solid delegation from Ohio for William J. Bryan.

The political situation in this State has been cleared considerably of late by the decision of the highest Court in our State. The case will now go to the Supreme Court, and its decision will settle the controversy. It is the judgment of some of the ablest Constitutional lawyers of the entire country that the United States Court has no jurisdiction in this matter.

A statement comes from Frankfurt that the Republicans have repudiated their proposition for an agreement to advance the pending cases of the Democratic State-offices against the usurpers. A refusal is probably due to a desire to hold on to the offices as long as they can. The Democrats will push the case, and there is a possibility that the Republicans will be indicted for usurpation of office.

The National House of Representatives has passed a bill favoring the election of United States Senators by popular vote. A large majority favored it. The old chair-warmers in the Senate are very apt to kill the bill.

Judge John R. Sampson, of Middleborough, has been mentioned as a probable candidate for Judge of the Court of Appeals to succeed Chief Justice Hazlet. Mr. Sampson is an excellent lawyer, a gentleman of high character, and his Adair county friends would be glad to see him on the bench.

Senator-elect Blackburn sizes up the political outlook thusly: "In my Congressional experience of twenty-five years I have never known a Congress in the control of either party that made as many political blunders. If we can't wipe out the Republicans in November on the blunders made thus far by the fifty-sixth Congress we ought to go out of the business. They have made up the issues of imperialism, militarism and trusts exactly to our liking. Indeed, if they had deliberately started in to make a good job of it for us they could not have done better. Having these facts in mind I feel certain that the Republican managers will hasten the close of the session, and welcome the day when they can breath easy again so far as Congress is concerned. For this reason I do not believe any effort will be made to force the ship subsidy bill through. The Republicans are not looking for more trouble, unless they have gone crazy."

# Kentucky Squirrel, No. 427

By Red Squirrel, heby Blac Squirrel

Will make the present season at Barbee & Grissom's livery stable in Columbia and will serve mares for the low sum of \$10.00 to insure a living colt. Money due when colt is foaled or mare traded or removed.

DESCRIPTION.—Kentucky Squirrel was foaled in 1887; is a brown 154 hands and is rich and fashionably bred. We do not believe there is a saddle stallion living that can act him. As a three-year-old he was shown all through Kentucky and was never defeated in his ring, and at the close of the season he was sold to J. W. Bates, of Richmond, Ky., for \$1,500. He is a perfect model, a horse of wonderful endurance, and a very superior actor. He has proved himself a number one breeder. S. T. Harrison, of Lexington, recently sold a mare sired by him for \$500. If you want a horse that is large enough, fine enough and does enough breed to Kentucky Squirrel.

COFFEY BROS.,

Columbia, Kentucky.

The statement was correct at that time, but Mr. Nell has decided not to accept the position, and is using his influence in favor of Dr. J. H. Grady, who, it is said, will doubtless take the list.

Last week Mr. Geo. R. Coffey was summoned to appear before the Frankfort county grand jury. It is said that some one had reported at Frankfort Mr. Coffey was in possession of information concerning the assassination. The report was emphatically denied by Mr. Coffey and he went to Frankfort to make his statement to the grand jury.

Mr. E. G. Atkins announces that he has closed his correspondence with the noted editor, Bartholomew, and that he will reach Columbia at an early day. In the meantime Mr. Atkins will continue to sell stock in his enterprise, promising to be one of the most profitable investments ever put out for sale. Mr. W. B. Patterson is equally interested with Mr. Atkins, and those who wish to do so, should not doubt that these gentlemen have struck it rich.

Ed Jean, a Metairie county tough, went to Edmonston last Saturday, filled his hide with "red fire" and undertook to take the life of the sheriff, who is the jailer of the county, attempted to arrest Jean, who resisted, shooting the jailer in the shoulder, and in return, Jean shot the sheriff in the back. He is said to be badly hurt, but there is not much probability of a quick death.

Greensburg and Campbellville have about perfected an arrangement whereby the two towns will be united into a single municipality. The same arrangement has been made for Columbia if our citizens will become interested. A petition would have to be presented to the legislature, asking his assistance in the matter. Mr. J. O. Russell has a letter in his possession which informs us how to proceed.

Mr. Horace K. Alexander and Miss Mary T. Williams, a popular couple of Burkesville, Ky., were married at the Presbyterian church in this city yesterday morning. A born gentleman is Horace Alexander, and those who are acquainted with his wife say she possesses all the characteristics that go to make up a lovely Kentucky woman. Here is our best wish for the happiness of the young couple.

Trade in Columbia has been a little quiet for the last week, owing to the fine weather for farm work, but in a short while every line will be booming again. Our merchants and farmers prepared this year to give entire satisfaction to the past. Every home is full of goods of the various grades and there is no reason for anyone to fear that he can not get what he wants in Columbia, excepting strong drinks and threshing machines, on short notice, for as little cash as any place in the State. We believe that a dealer will buy as much and of a better grade in Columbia than any other town in the State. If you have doubts about this and have not been trading here, just give it a trial.

The News is not an alarmist, but when facts are told by men who are in the position to know, we give the name to the public, especially when the probability is interested. Farmers tell us that stock feed was never scarcer in Adair county than at the present time. There is but little corn, and the farmers are using that to feed their own hogs. There is very little hay, none must be raised and the season is not in grating condition. Some warm days, bringing out the pastures, is what is most desired at this time.

Persons owning tax for 1900-9 must arrange to pay at once or I will proceed to levy.

W. L. WALKER.

Some citizens of Adair county feel a little sore over the action of the Adair Fiscal Court in making a levy for two bridges, one to cross Green river, the other Russell's Creek at Milltown. People have been clamoring for these structures for the past ten years, and they will certainly be of much benefit to the whole county. It is true some people will receive greater benefits than others, but when the tax is placed upon all property holders, so much on the one hundred dollars, and that the debt has been liquidated every body will praise the action of the County Court. When our courthouse and jail were built, you will remember - there was much kicking - to be turned into nothing after the debt was paid. The amount each man will have to pay will be a small sum, and it should be cheerfully handed in - helping their neighbors who are inconveniently situated on account of water courses.

**Sweeping Reduction.**

As long as they last but cannot be duplicated, I will offer as follows:

75 pairs of misses and children's black and tan slippers, 45c.

75 pair of infant slippers, 30c.

200 pair ladies' button shoes, 60c.

100 pairs ladies' dongola kid shoes, \$1.00, former price, \$1.50.

100 pairs women medium weight shoes, 75c.

100 pairs men's fine shoes, \$1.00.

100 pairs boy's fine shoes, \$1.00.

Do not wait, the above prices will sell them quick. They are not cheap, shoddy stuff but good goods. It won't cost you anything to examine them. W. L. WALKER.

**More of Mrs. Simpson's Death.**

On Sunday April 8, 1900, Mrs. Mary Simpson died of tubercular peritonitis at her home in Battle Creek, Michigan. She leaves a husband and three little girls to fight the battle of life alone. She was a devoted Christian, and devoted to the horrors for her. She calmly bore her husband and children's griefs, admonishing them to meet her in the New Earth where there would be no death. Mrs. Simpson was born January 9th, 1866 in Jamestown, Ky. and was a daughter of J. E. Hays. She was educated in Columbia Christian College and Hamilton College, Lexington, Ky.

Her remains were interred in Battle Creek cemetery.

We have been asked several times to make mention of the disgusting habit of chewing was in church. What is the use? If parties who are addicted to this habit do not know how ugly it looks, they would not know what the item means were we to write one. Therefore, we will have to decline saying anything about was-chewing in church.

We walked over the city cemetery last Sunday afternoon and was gratified in seeing all the graves well-kept with but one exception—that of Mrs. Virginia Rober. It has recently fallen in. No relatives of the deceased being in this community it is hoped that the trustees will care for the grave. Those who remember Mrs. Rober will bear testimony to her excellent Christian character, her devotion to her church and Sunday-school.

A missionary Sunday school convention will be held at the Baptist church in this city beginning Friday night, April 27, and continuing through Sunday. An interesting program has been made out, and doubtless there will be a large representation in attendance. There will be choir music, speeches, essays, etc. All who are interested in Sunday-school work are cordially invited to be present and take part in the exercises.

It is well enough for some people to be "forever and eternally" giving to know that it is just as harmful to repeat a scandal as it is to start one. Furthermore, if a malicious report is started the person slandered has the same action in law against the repeaters as he has against the one who originated the story. Under these circumstances persons who repeat such statements should David Crockett's motto: "Be sure you are right, then go ahead."

Mr. T. E. Pauli informed us a few evenings since that a certain lady in the community was lying in wait for a broomstick. Since receiving the information we have been taking the other side of the street. But one thing certain if we go unannounced to appear in the News that will lead the friends of a married lady to conclude that she has lost her husband when he is hale and hearty.

If you are a paid subscriber for the News you are entitled to advertise your farm products for sale in its columns without money and without price; otherwise it will be treated purely as a business matter, the regular rates being charged. If you are paid subscriber for the News you are entitled to our columns free of charge. Give the twice a week Courier-Journal, 50 cents the Weekly Enquirer.

Rev. G. D. Dillon preached two, interesting sermons in this place last Sunday. In the forenoon he filled the pulpit at the Baptist church and in the afternoon he spoke at the M. E. Church. Large congregations were out and close attention given the speaker. Mr. Dillon is a promising young man, and in our judgment will not be long in making a reputation as a pulpit orator. He is a man of education, a profound reader, and his Christian character is above reproach.

We understand that there is a "bite" in the location of the Methodist District School at Burkesville. The Burkesville people, as we are informed, came up with their part of the contract, and the Committee claims that its part of the agreement is different from the way the Burkesville citizens understand it. The disagreement is over the amount of money the location failed to raise. In other words Burkesville got into the boat, the other side did not have the fare.

Our old friend, Bob Fesse, who lives at Cave Valley, and who has been a Democrat all his life, but who could not see his way clear in the last contest, and did not support Mr. Goebel, sends us word that he is through "scratching," and will henceforth support the nominees of the Democratic party. We knew Bob would come around all right. He followed the teachings of the Gospel too long to be let entirely enticed by a party which stands for everything he opposes. Bob's wife and children are happy, knowing that his name will be found in the Bryan column this year.

**For The Ladies.**

Mrs. T. I. Smith, the artistic milliner, Cave Valley, has the largest line of spring hats, bonnets, ribbons, etc., ever opened this side of Green river. Not a hat but carries over from the season of last year, and is complete. If you want to see hats dazzling with beautiful flowers, call at her store. Her stock was bought 10 per cent cheaper than last year, hence she can sell goods for less money than any other milliner in the county. Satisfaction guaranteed. Produce taken in exchange for goods. Call.

**Inhuman Laws.**  
In 37 of these United States a married woman has no legal right to her children.

In 16 states a wife has no legal right to her own earnings outside of the home.

In 8 states a woman has no right to her own property after marriage.

In 7 states there is no law compelling a man to support his own family.

Taking these things to heart, proud-women of this city have formed the National Legislative League for the purpose of doing away with them.

We hope they may succeed. If women who bear children, who nurse them in sickness, whose existence is bound up in babyhood, have no right to their babies, who on earth has?

It seems a strange fact that the remarkable legislators who passed this law in 37 states were once babies themselves. Perhaps the curriculum of an incubator would have made them think and act differently.

And why should not a wife have a right to her own earnings? What justice is there in that which prevails in 16 states which allows a recreant and drunken husband to despoil his wife of the money she has earned?

Who gave the small atom shaped after the fashion of Adam the right to oppress and bulldoze the smaller atom shaped after the fashion of Eve?

Not less idiotic is the law prevailing in 8 states which takes away the right of a woman to her own property after marriage. Thus the marriage law in these states may be made the vehicle of downright robbery by men who care nothing for the sanctity of a vow.

Taken as a whole the women of the National Legislative League have a mighty good basis of facts to work on—New York Journal.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. **FROM TEXAS.**  
Hillsboro, Tex., April 10, 1900.  
Dear Editor:  
Notwithstanding all the many stories which are current in Kentucky adverse to the interest and good name of the famous "Lone Star State," I believe that could you leave home amid the mud, cold and snow of a Kentucky winter and find yourself situated in this land of waving wheatfields, and beautiful spring weather, you would be willing to say that many of the things which you have heard concerning this country are far from the truth.

I hope no one will think that my love for my native State has blinded in the least, for nothing could be more absurd. There are those which bind my affections to Kentucky and to Kentuckians which no country nor people could sever, but I believe that in many respects Texas equals, and in some surpasses Kentucky. Believing this as I do, I suppose I might give some reasons for my belief, but the winters here are much shorter and less severe than in Kentucky. It is true that we have some very sudden and unexpected "Northerns" which often do some damage, but they rarely ever last more than two or three days. During this winter season has fallen only one time, and that time it melted as fast as it fell. Some may not think this any material advantage over the Kentucky winters, but as I'm considerably "African" on the subject of weather, I think that it is.

2nd. Another advantage which this country has especially for the agricultural masses, is the fact, that the majority of the country is practically level, and void of stumps, roots, hillsides, rocks and gravestones which are the fearful bane of every grow-boy in Kentucky and it is presumptuous to say that the soil in this State is less adapted to farming interest than that of the "Dark and bloody ground." The soil of course, not all of this State is a flower garden as fertile as the valley of the Nile. As it is not human for us to see the faults in those things which we admire, I'll say nothing in regard to some things which I know exist in Texas.

3rd. But for a third and I think the greatest advantage which Texas enjoys over Kentucky I'll mention her impregnable and undefeatable Democracy. Never in all her history have the Republicans been able to score a single victory. I am not mistaken in only one instance sided by the "Eggs" have they elected a Congressman, and this Congressman, Mr. Hawley, will have a close call for his place in the election this year.

I'll tell you something of a Republican Convention (State Convention too) which was held at Waco a few days ago. After the Chairman had stated the object of the convention, the names of two of the blackest negroes in the state were placed before the convention for the office of permanent Chairman. The white friends were very ardent in their efforts to elect their respective negro. The vote was very close, and as a consequence the Convention split, each faction declaring their man elected, and both proceeded to do business, under the domination of their negro hero. A committee of four, (two whites and two blacks) were appointed to escort one of the negroes to the chair. This is the way they did it. They picked up the 300 pound black "Son of God" and carrying him high in the air, landed him triumphantly on the platform, where he bowed, smiled and thanked them for the "great honor which they had bestowed upon him." I wonder how the Republicans of Adair county would like to take one dose of this pure undiluted Republicanism? It seems to me that it is enough to disgust any fair minded man with his party, when the negro becomes dominant in it.

Tyler Wooten and Ed. L. Harvey, former Adair county men, were candidates for Abnerman in this county, but from different wards. Wooten was defeated by 85 votes and Harvey won by a majority of 3.
